

SIMPATEC

International

SimpaTec Usermeeting 2019

EXHIBITORS

March 25 and 26, 2019, Unesco-World Heritage 'Zollverein' Essen

Always being up-to-date, following the latest research results and developments within the plastics industry and integrating them into software and range of services was and still is one of SimpaTec's most important business principles.

MOTIVATION

SimpaTec is pleased to welcome selected technical partners as part of the International SimpaTec Usermeeting 2019 and to be able to offer exclusive exhibitor opportunities.

Our Moldex3D - Usermeetings have become extremely important and an indispensable means of communication. Interacting with you enables us to offer creative and innovative ideas in order to guarantee a cost-optimal product and process management. Sufficient time for discussions will be provided either between the presentations, in the foreseen generous breaks, during the workshops or in a relaxing atmosphere at the evening event. Enough interesting topics will be available and we look forward to the liberal, very constructive discussions.

Take this opportunity to present your company to a high-class professional audience during our event.

A highly representative exhibition area will be available in close proximity to the culinary provisions taking place during the event.

The amount of sponsors is limited.
